ASSESSMENT

- **Functionality**
- **Future Prospects**
- **Weaknesses**
- **Social & Ethical Implications**

Functionality

- Lets users tailor ATS-friendly, job-specific resumes
- Build and prioritize a target company list
- Track applications end-to-end with deadlines and smart next step recommendations.

Future Prospects

- Having the option of generating cover letters
- Adding an in-app PDF editor
- Notifications urging users to keep the human-to-human network intact
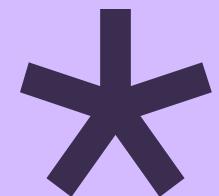

Weaknesses

- Lack of proper app security
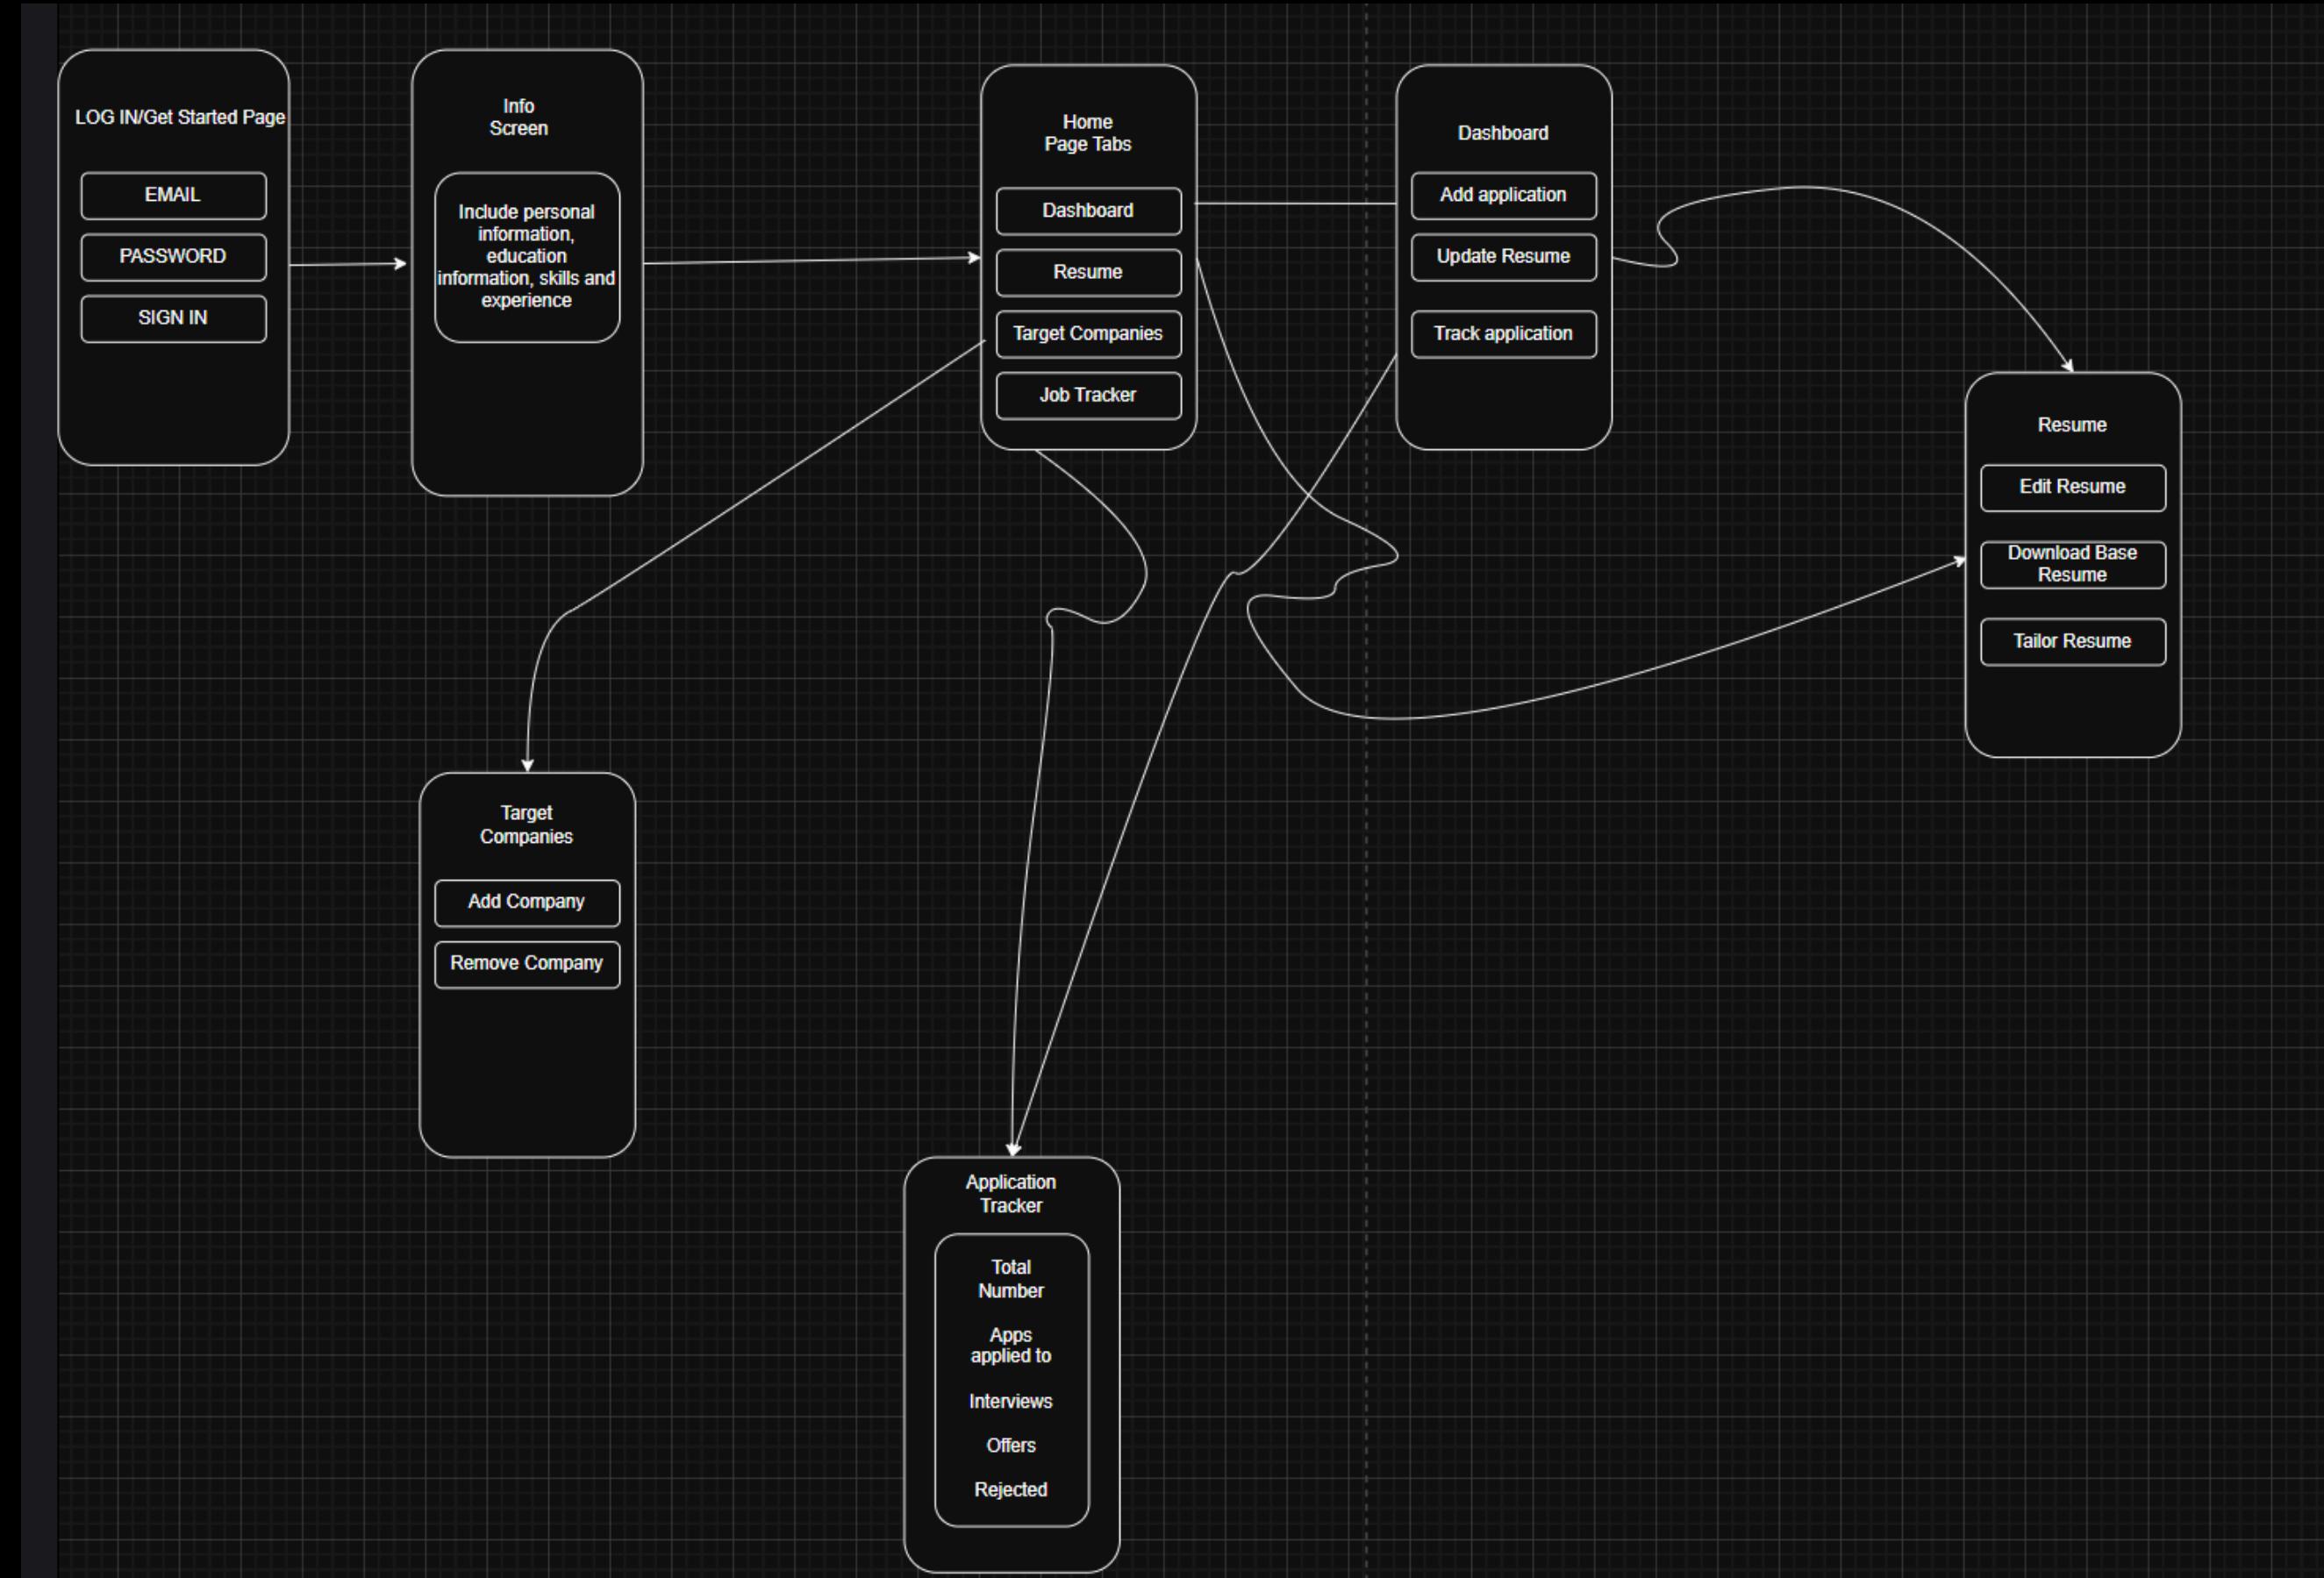

Social & Ethical Implications

- Using the AI feature as a guide, not a replacement
- Shapes how users approach the job market strategically
